Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

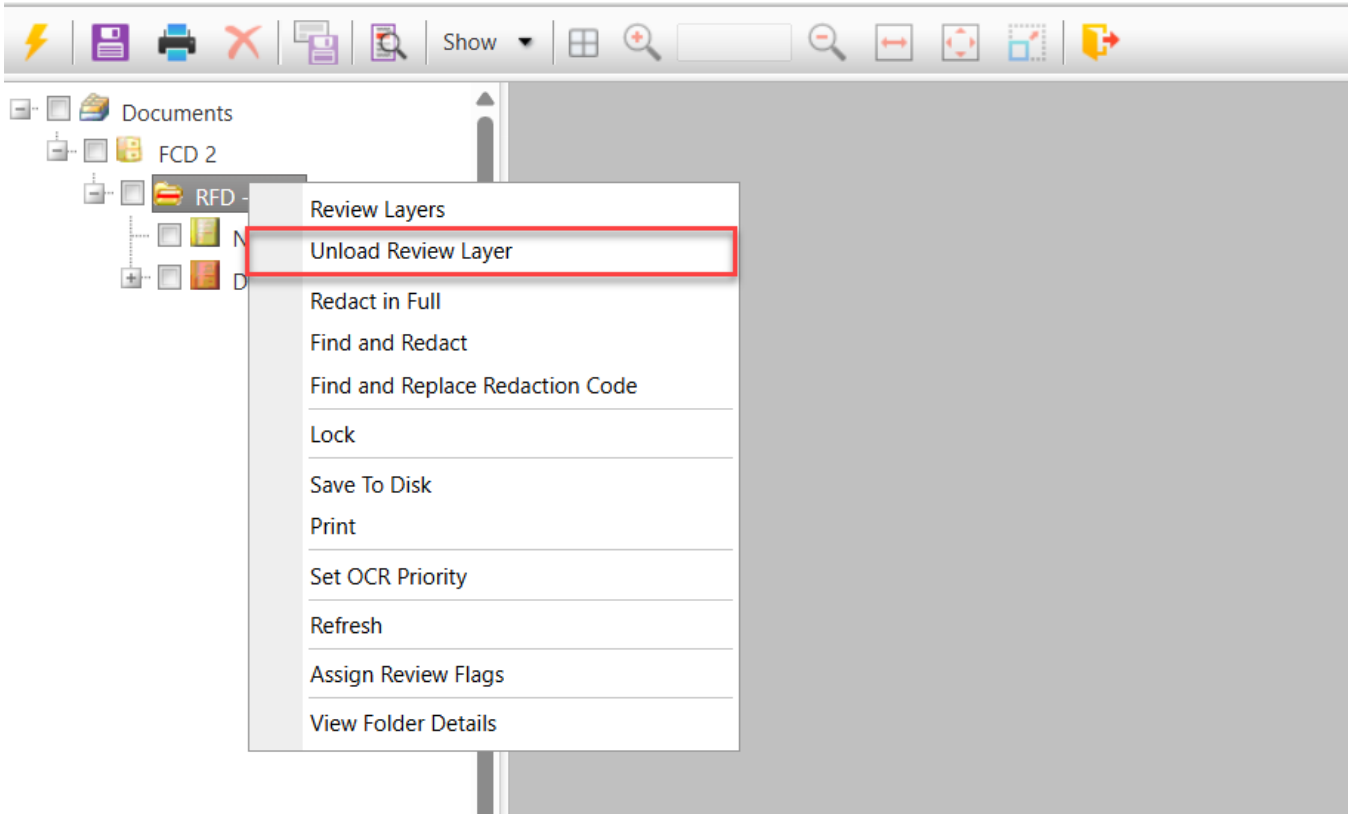
Product Enhancements

1.1 Unload Collaboration Portal Review Layer

ID# 99462, 99801

You can now unload a review layer in the Collaboration Portal Document Review Module when adding review objects (such as Redactions/Severance) to a document in response to a Request for Documents or Consultation task.

If you made a review layer but need to make additional changes to the document, like image operations or removing pages, you can right click on the folder and click **Unload Review Layer**. Then, you can edit the document.



After you've unloaded the Review Layer and made your edits, you must reload the Review Layer to continue adding document review objects (such as redactions).

We've also added the option to delete a review layer: right click on the folder and select **Review Layers.** Then, click **Delete.**

Note: Once a review layer is deleted, it cannot be restored.

2 Bug Fixes

We've addressed the following bugs in this version of ATIPXpress:

ID	Description
101604	When creating a Privacy Act Complaint, sub-type reasons for exension under reason "15(a)(i) Interferance with operations" now display on the screen for selection.
101610	Label text on localized dropdown menu fields now displays correctly.
101612	Adjusted Collaboration Portal task naming assignment so that RFD tasks received by ATIPXpress are not incorrectly captured as Consultation tasks in the Review Status. Note: Review Status naming is a configurable field.
101613	Updated dashboard queries to correct erroneous counts in the drill down view of Dashboard widgets.
101703	Updated query counts for External and Internal sub-types in the 15(a)(ii) Consultation Complaints reason populated in sections 6.1 and 6.2 of the Statistical Report.
101816, 101820, 101821	Updated the "1 to 15 Days" column header label to "0 to 15 Days" in sections 2.2, 4.1, 7.1, and 7.2 of the Statistical Report.

ID	Description
102257	When a user is added to a request as a Primary User via the Assign Users tab, they are will always be added as a Secondary User on the Request and given the related permissions. We've removed the pop-up that used to give users the option to add the Primary User as a Secondary User; the assignment now happens automatically.
102482	Addressed a bug where page rotation image operations conducted in the Collaboration Portal Document Review Module were incorrectly applied twice when sent back to ATIPXpress.
