Bug Fixes

We've addressed the following bugs in this version of ATIPXpress:

ID	Description
579002	Addressed a bug found in multiple scheduler scenarios where the application was not installed, and the PAL Sync Job was not configured on the scheduler.
100794	Resolved a mismatch in the Statistical Report Section 2.3 counts and the Request Report # of pages released count.
101044	Fixed a bug that caused localized request type names to display zeroes instead of the correct data.
101822	Updated the second column name in the ATIA Statistical Report Section 4.7.1 to Operations/Workload.
101847	Updated Section 4.5.4 to Relevant minutes processed per request disposition for audio and video formats in the ATIA Statistical Report.
102083	Addressed a bug that was causing special French characters to not be identified in OCR.
102501	Fixed a bug that was causing improper translation of date fields when the correspondence letter template language was selected as French.
102741	Newly created requests will now reuse deleted case numbers, i.e., the case numbers associated with deleted requests.

Bugs

ID	Description
102953	Fixed a bug where the ATIP Annual Statistical Report was incorrectly counting requests in the Recycle Bin (marked for deletion). ATIPXpress Statistical Reports (FIPPA) now displays the correct request counts, specifically excluding the removed requests that are in the Recycle Bin.
103558	Resolved a dashboard bug in which incorrect counts were displayed on drilled down graph views.
103686	Fixed a bug preventing insert fields from translating properly when creating Correspondence Letter Templates in French. Correspondence letter templates insert fields that are localized now use the correct display text based upon the language selection of the Correspondence Letter Template regardless of the user's language preference setting.
103806	Addressed an issue causing job failure while attempting to upload PDF image files with long names.
103852	Resolved a bug restricting RFD response messages.
103939	Fixed a bug restricting saving a request until the Due Date field is populated. Due Date should not be mandatory or linked to the initial assignment configuration.
104230	Fixed an issue that was preventing creation of a new Program Office when the Collaboration feature was disabled.
104235	Hide the option to create new roles in the Collaboration Portal.
104356	Resolved an issue in which request descriptions marked as restricted were being passed to Collaboration Portal.

Bugs

ID	Description
104464	Addressed a bug that prevented new PAL requesters from signing in when SAML SSO was enabled.
