# ATIPXpress v11.12.3.0 Release Notes

## Notice of Rights

Copyright © 2025, OPEXUS, LLC d/b/a OPEXUS. All rights reserved. No part of this publication may be reproduced, transmitted, transcribed, stored in a retrieval system, or translated into any language, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without prior written permission of the publisher: OPEXUS, LLC. For information on obtaining permission for reprints and excerpts, contact [info@opexustech.com](mailto:info@opexustech.com).

Additionally, all copyrights, confidential information, patents, design rights and all other intellectual property rights of whatsoever nature contained herein are, and shall remain, the sole and exclusive property of the publisher.

## Notice of Liability

The information in this publication is believed to be accurate and reliable. However, the information is distributed by the publisher (OPEXUS, LLC.) on an “As Is” basis without warranty for its use, or for any infringements of patents or other rights of third parties resulting from its use.

While every precaution has been taken in the preparation of this publication, neither the author (or authors) nor the publisher will have any liability to any person or entity with respect to any loss or damage caused or alleged to be caused, directly or indirectly, by the information contained in this publication or by the computer software and hardware products described in it.

## Notice of Trademarks

The publisher’s company name, company logo, company patents, and company proprietary products are trademarks or registered trademarks of the publisher: OPEXUS, LLC. All other trademarks or registered trademarks are the property of their respective owners.

## Non-Disclosure Statement

This document’s contents are confidential and proprietary to OPEXUS, LLC. This document cannot be released publicly or outside the purchasing agency without prior written permission from OPEXUS, LLC.

Images in this manual are used as examples and may contain data and versioning that may not be consistent with your version of the application or information in your environment.

## Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of OPEXUS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

# Product Enhancements

## 1.1 French Translation

ID# 83182

We have facilitated the French translation of items in ATIPXpress. With this update, multiple issues and inconsistencies in Canadian French language support across ATIPXpress were resolved. We have also provided a spellcheck functionality for data input by the user in the French language.

You can set the Language to French from **Profile > Preferences > General Preferences**. Once you log out and log back in, you will be able to view ATIPXpress in French. It must be noted that the static fields will be translated to French, but dynamic or user-defined fields will remain unaffected.

# Bug Fixes

We've addressed the following bugs in this version of ATIPXpress:

ID	Description
62157	Fixed an issue where PAL requests deleted from ATIPXpress were still appearing to the requester in PAL. The requests will no longer be visible after deletion.
82141	Addressed a bug restricting the deletion of a PAL Configuration Admin User who has associated emails in the Admin Email log.
97091	Resolved an error was being encountered while attempting to save Request Report criteria with 200 request types. The Request Report performance can run with larger datasets, i.e., 250+ request types.
99166	Fixed a bug where a selection of Find and Unredact options were unavailable.
99939	Addressed a bug where the number of allowed Collaboration Scan Users were not being updated while the Scanning Role window was open, thus allowing the number of Scan Users permitted in the license to be exceeded.
100532	Corrected a bug where if only the Name value of a Correspondence Template was edited, the changes were discarded and if another field was edited along with the Name, the original version of the template remained unchanged with the original name while a new version was saved with the edits under the new name. The Correspondence Template can now be renamed without any issues.
