ATIPXpress v11.13.2.0 Release Notes

Notice of Rights

Copyright © 2025, OPEXUS, LLC d/b/a OPEXUS. All rights reserved. No part of this publication may be reproduced, transmitted, transcribed, stored in a retrieval system, or translated into any language, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without prior written permission of the publisher: OPEXUS, LLC. For information on obtaining permission for reprints and excerpts, contact info@opexustech.com.

Additionally, all copyrights, confidential information, patents, design rights and all other intellectual property rights of whatsoever nature contained herein are, and shall remain, the sole and exclusive property of the publisher.

Notice of Liability

The information in this publication is believed to be accurate and reliable. However, the information is distributed by the publisher (OPEXUS, LLC.) on an “As Is” basis without warranty for its use, or for any infringements of patents or other rights of third parties resulting from its use.

While every precaution has been taken in the preparation of this publication, neither the author (or authors) nor the publisher will have any liability to any person or entity with respect to any loss or damage caused or alleged to be caused, directly or indirectly, by the information contained in this publication or by the computer software and hardware products described in it.

Notice of Trademarks

The publisher’s company name, company logo, company patents, and company proprietary products are trademarks or registered trademarks of the publisher: OPEXUS, LLC. All other trademarks or registered trademarks are the property of their respective owners.

Non-Disclosure Statement

This document’s contents are confidential and proprietary to OPEXUS, LLC. This document cannot be released publicly or outside the purchasing agency without prior written permission from OPEXUS, LLC.

Images in this manual are used as examples and may contain data and versioning that may not be consistent with your version of the application or information in your environment.

Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of OPEXUS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

Product Enhancements

1.1 Enforce Collaboration Portal users on Concurrency

ID# 1277924

We have enhanced the Collaboration Portal to ensure that Collaboration Portal users adhere to the agency's Collaboration Portal License for concurrent users. With this update, a Collaboration Portal user will be restricted from logging in when the maximum number of concurrent users have already logged in.

1.2 Collaboration Portal French Translations

ID# 1277605

With our continued commitment to provide French translations throughout the system, we have focused on translating the majority of items in the Collaboration Portal.

1.3 French Translations

ID# 1226894

With this feature, we have addressed French translations for Document Management and several other areas throughout the application.

Bug Fixes

We've addressed the following bugs in this version of ATIPXpress:

ID	Description
83167	Enhanced formatting of the Administration page's left navigation in the Collaboration module.
99166	Fixed a bug causing Selection under Page Range to appear grayed out in Find & Unredact on the Folder level.
100618	Addressed an issue allowing the number of scan users permitted in the license to be exceeded due to inaccurate counting of number of allowed Collaboration scan users while the scanning role window is open.
100435	Resolved an error encountered on adding a Correspondence attachment to Collaboration message on the Collaboration portal, that caused the window shift out of view thereby restricting any user interaction.

Security Updates

We've made the following security updates in this version of ATIPXpress:

ID	Description
1278800	Updated system libraries and DLLs to enhance performance and compatibility of PAL and PAL Configuration.
1278978	Configured SQL Server to use non-standard ports in PAL/PAL Configuration and Collaboration.
1279115	Tested accessibility and implemented remediation for the required compliance points of Collaboration module.
1279241	Encrypted all configuration files for PAL and PAL Configuration modules to further safeguard system credentials and configurations from unauthorized access.
1290223	Updated JavaScript libraries to fix vulnerabilities in PAL and PAL Configuration modules.
1290228	Fixed a vulnerability that allowed an authorized user to view the names of the non-owned folders in the Document Management System.
1292611	Deprecate unload function in PAL.
1294479	Introduced output encoding (e.g., HTML entity encoding), input validation, and Content Security Policy (CSP) headers.
1295860	Implemented rate limiting on OTP verification to mitigate brute-force vulnerability identified.

Security Updates

ID	Description
1298392	Introduced output encoding (e.g., HTML entity encoding), input validation, and Content Security Policy (CSP) headers.
1298396	Introduced output encoding (e.g., HTML entity encoding), input validation, and Content Security Policy (CSP) headers.
1298397	Sanitized all user inputs rendered into HTML, used templating engines with auto-escaping, and limited rendering of untrusted content.
1298821	Prevented vulnerability of Improper HTML Control Handling in PAL modules.
1299788	Restricted the number of password reset verification code requests within a defined time frame to enhance security and prevent abuse.
1303264	Fixed a security vulnerability in PAL Configuration for pal_adminlogin page.
1304324	Introduced output encoding (e.g., HTML entity encoding), input validation, and Content Security Policy (CSP) headers. Sanitized certain user inputs rendered into HTML, used templating engines with auto-escaping, and limited rendering of untrusted content.
1306051	Reviewed and corrected access control policies, implemented deny-by-default strategies, and validated user roles per request.
