Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of AINS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

Bug Fixes

We've addressed some issues identified by our customers and the OPEXUS team. These bug fixes are outlined in the table below.

ID	Description
62112	A bug caused an error message to appear when attempting to do a User Search. The default limit on the User Search results has been updated to eliminate this error.
62783	Provided a configuration option to exclude Task-related items from the default folder search screen.
62828	Fixed a reports bug which caused new saved and edited case reports to display incorrect data. New case reports now produce the expected results after editing.
62964	Fixed an issue where an unhandled exception caused the scheduler to terminate unexpectedly, and fixed an issue which caused the scheduler to crash while writing logs.
63344	Fixed an error in the App Designer where the "Task Assigned To" field was not added to the Task List when assigning a task.
