Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of OPEXUS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

Product Enhancement

ID #104107

When a user clicks the Edit button on an attachment for which they have view-only permissions, they will be taken to a viewing tool. PDF files open in PDFViewer and Microsoft files open in DocViewer.

Users who have editing permissions will be taken to an editing tool (PDFEditor or DocEditor) and users who do not have editing or viewing permissions will not be able to open the document. If the attachment is in an unsupported format, an alert message will appear.

Bug Fixes

We've addressed the following issues in eCASE v11.3.11:

ID	Description
103527	Folder URLs linked in system emails now correctly route to the folder, even when SAML SSO is enabled.
104641, 104702	Addressed multiple issues occurring upon workflow import.
104451	Resolved an error message appearing during import/export of the Investigation application.
77781	Fixed a bug in which Contact Searches would fail when an Alternative Phone field with Quick Search enabled was included in the Contact Type.
103937	Resolved an issue impacting query reports with multiple parameter values selected.
65391	Fixed a bug causing the Contact Search criteria to display incorrectly in email forms.
104423	PDF bookmarks using the Reference Link generated from eCASE now direct to the proper page.
104022	Addressed an issue in which users were able to edit, but not save, PDF documents opened in read-only mode.
102825, 103784, 102826	Updated application text and table formatting to support JAWS screen readers and improve accessibility.
