## Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of AINS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

# FOIAXpress 11.1.1 PAL Release Notes

## Product Enhancements

We've made improvements to FOIAXpress PAL for version 11.1.1, as outlined in the list below:

ID	Feature	Description
11505	Increased Maximum Willing Billing Amount	Users can now submit National FOIA Portal requests with a willing billing amount of over 999,999,999 without receiving an error message. The number is truncated in the PAL description field, but the system reflects the full amount in PDF versions.

## Bug Fixes

We've addressed some issues identified by our customers as well as our OPEXUS team. These bug fixes are outlined in the table below.

ID	Description
22254	Added the option to activate a requester's account and send a new password from PAL Config, provided the requester's account is synced with FX/AX. The username is set as the email address.
22486	A cross-site scripting issue identified in the PAL SentEmails.aspx now displays an error message if encountered, and this issue is also logged in the Error Log.
