FOIAXpress v11.11.0 Release Notes

Notice of Rights

Copyright © 2025, OPEXUS, LLC d/b/a OPEXUS. All rights reserved. No part of this publication may be reproduced, transmitted, transcribed, stored in a retrieval system, or translated into any language, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without prior written permission of the publisher: OPEXUS, LLC. For information on obtaining permission for reprints and excerpts, contact info@opexustech.com.

Additionally, all copyrights, confidential information, patents, design rights and all other intellectual property rights of whatsoever nature contained herein are, and shall remain, the sole and exclusive property of the publisher.

Notice of Liability

The information in this publication is believed to be accurate and reliable. However, the information is distributed by the publisher (OPEXUS, LLC.) on an “As Is” basis without warranty for its use, or for any infringements of patents or other rights of third parties resulting from its use.

While every precaution has been taken in the preparation of this publication, neither the author (or authors) nor the publisher will have any liability to any person or entity with respect to any loss or damage caused or alleged to be caused, directly or indirectly, by the information contained in this publication or by the computer software and hardware products described in it.

Notice of Trademarks

The publisher’s company name, company logo, company patents, and company proprietary products are trademarks or registered trademarks of the publisher: OPEXUS, LLC. All other trademarks or registered trademarks are the property of their respective owners.

Non-Disclosure Statement

This document’s contents are confidential and proprietary to OPEXUS, LLC. This document cannot be released publicly or outside the purchasing agency without prior written permission from OPEXUS, LLC.

Images in this manual are used as examples and may contain data and versioning that may not be consistent with your version of the application or information in your environment.

Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of OPEXUS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

Product Enhancements

1.1 New Configuration Option: Default DPI

ID# 68220, 68240

We've added the option to change the global default DPI for Document Management, making it easier to update the resolution DPI setting for pages in Document Management. To update the DPI, navigate to **Administration > System Configuration > Document Management Configuration > Document Output Quality Factor.** Please note that increasing resolution DPI will also increase the size of files saved in PNG cache. The default option provided out-of-the-box is 150 DPI.

1.2 Release Format Field Update

ID# 95276

When closing a Request, you can now specify the *Release Format*. The field has been expanded to include checkboxes for each available format (Paper, Audio, Data set, Video, E-record, or Other). Once you select a format, you can specify the breakdown of what was released and what was reviewed. You can select multiple formats if needed or leave the field blank if no records were released.

2 Bug Fixes

We've addressed the following bugs in this version of FOIAXpress:

ID	Description
83872	Remediated a vulnerability related to Host Header Injection.
93308	Resolved a run time error occurring during advanced Request searches filtering for a Date-related field with the "IN" operator.
93002	Removed Tenant ID validation from the source code because it is not applicable to the API.
97460	Addressed a bug where the redaction code b(3) was not displayed in the redaction box when applied to a document in Document Management.
97458	Resolved a bug in which refreshing the page on a Request for Documents or Consultation task Messages page would cause the window to break.
100349	Updated the RFD task submission screen so that the Attachments checkbox is automatically checked when files are attached to task submission.
