Notice of Liability

The information in this publication is believed to be accurate and reliable. However, the information is distributed by the publisher (AINS, LLC.) on an "As Is" basis without warranty for its use, or for any infringements of patents or other rights of third parties resulting from its use.

While every precaution has been taken in the preparation of this publication, neither the author (or authors) nor the publisher will have any liability to any person or entity with respect to any loss or damage caused or alleged to be caused, directly or indirectly, by the information contained in this publication or by the computer software and hardware products described in it.

Notice of Trademarks

The publisher's company name, company logo, company patents, and company proprietary products are trademarks or registered trademarks of the publisher: AINS, LLC. All other trademarks or registered trademarks are the property of their respective owners.

Non-Disclosure Statement

This document's contents are confidential and proprietary to AINS, LLC. This document cannot be released publicly or outside the purchasing agency without prior written permission from AINS, LLC.

Images in this manual are used as examples and may contain data and versioning that may not be consistent with your version of the application or information in your environment.

Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of AINS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

1 JAWS Instructions for PAL Configuration

1.1 Tab Navigation

When a form is loaded, if the form contains editable fields, and they have the focus, JAWS enters into Forms mode by default. In this circumstance, instead of reading the entire contents of the form, JAWS reads only the focused fields. To have JAWS read the entire contents of the form, perform the following steps:

- 1. Turn off the Virtual PC Cursor by pressing Insert + Z.
- 2. Press Insert + F9 to open the Frames list.
- 3. Select Workspace Area from the Frames list.

To read a single line at a time, instead of the entire contents of the form:

- 1. Turn off the Virtual PC Cursor by pressing Insert + Z.
- 2. Press Ctrl + Home to move the control flow to the first control on the form.
- 3. Press Tab + Shift to move the control backwards.
- 4. Press Tab to move the control forward.

(!!) Note: Depending upon the browser you are using to access the PAL application; some default shortcuts may no longer be available. For example, Alt + E, Alt + F, and Alt + D do not function in the Chrome or Edge browsers.

1.2 Asterisk Tab Definition and Mandatory Fields Notification

Fields containing a wild card (an asterisk) are identified as wild card searches in search screens. Users are notified about mandatory fields, which are red bordered fields that contain an asterisk. You can configure JAWS to read aloud wild card searches, including mandatory fields with a wild card, by performing the following steps.

- 1. Press + on the numeric keypad to exit Forms mode.
- 2. Press Ctrl + Home to have the first control on the page read aloud.
- 3. Press the Up arrow key to move the control backward.
- 4. Press the Down arrow key to move the control forward.

1.3 Left Panel Shortcut Keys

To open a screen, you must press **Enter + Access Key**. The following table provides a list of default access keys to the PAL Configuration application.

Shortcut Key	Menu Name	Task
Alt + B	Database Connection	Selects the Database Connection link
Alt + G	General Settings	Selects the General Settings link
Alt + N	Enterprise	Selects the Enterprise link
