1 About this Manual

1.1 Introduction

Welcome to the FOIAXpress Collaboration Application User Manual. The FX Collaboration Portal provides a platform for FOIAXpress users to work together on requests with others outside their FOIAXpress environment, easily collaborating on requests for documents and document reviews.

This document provides instructions for FOIAXpress users to work in the Collaboration Portal. The following topics are covered in this section:

- *Requests for Documents*: Details on sending and completing a Request for Documents in the FOIAXpress application.
- *Consultation Reviews*: How to send documents for consultation review using Collaboration.
- *Correspondence*: Sending and receiving messages from the Collaboration Portal

1.2 Typography

The following formatting conventions are used in this manual to highlight important information:

- *Italicized* text indicates a location, for example a particular *Folder*, *Tab*, or *Window*.
- **Bold** text indicates a specific user action, such as clicking a **button**.
- **Red** text and this symbol (!!) are used in *Notes* to bring attention to **crucial information**.

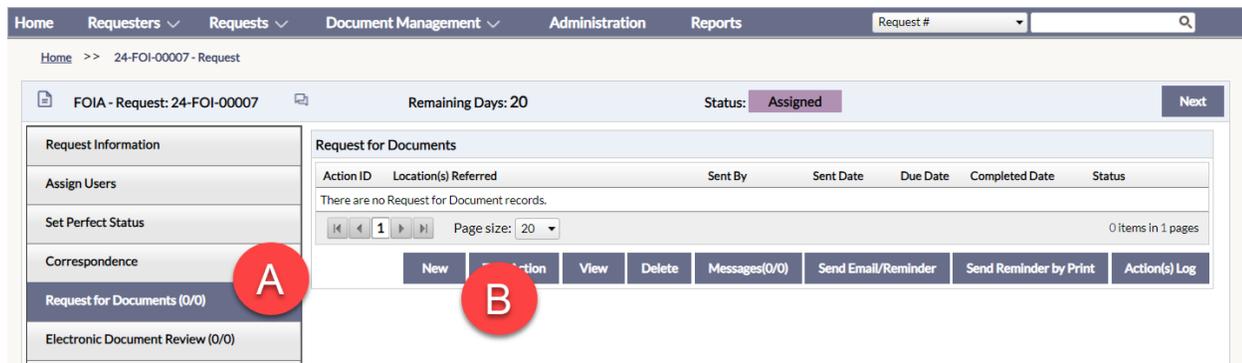

2 Requests for Documents

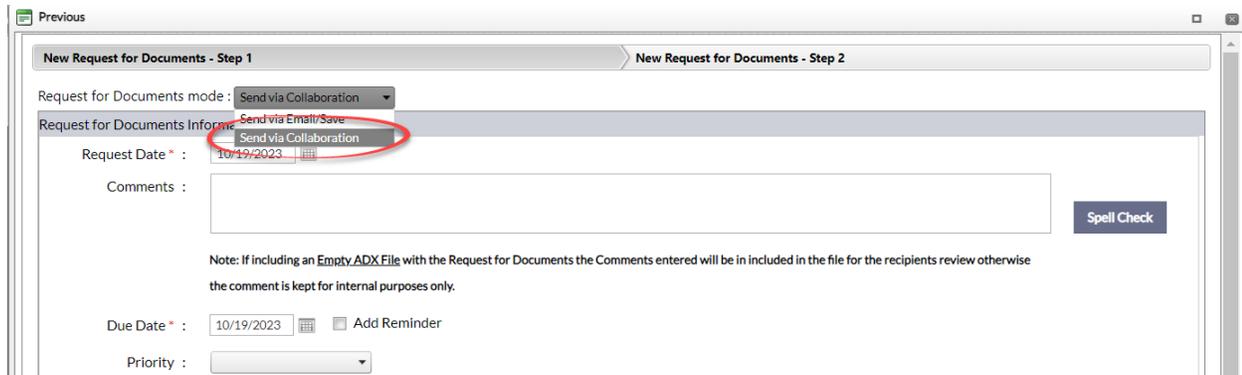

2.1 Sending a Request for Documents

One of the main uses for Collaboration is to request documents from a source who does not have access to FOIAXpress. Follow the steps below to submit a Request for Documents to a contact using the Collaboration Portal.

1. Open a request that has been assigned. Requests that are not assigned are not eligible for submitting RFDs.
2. Select (A) **Request for Documents** from the left-hand navigation, then click (B) **New**:

3. On the *New Request for Documents* screen, locate the *Request for Documents mode* and select **Send via Collaboration**. This option submits the request to the Collaboration Portal.

4. In the *Send to: Program Offices* section, click **Add Program Offices**. The *Create/Search Program Office/Consultancy* screen appears as shown below:

Collaboration for Portal Users

The screenshot shows a web application window titled "Create/Search Program Office/Consultancy". It has two tabs: "Search Program Office/Consultancy" and "Create New Program Office/Consultancy". The "Search" tab is active. The interface includes a "Search Criteria" section with a note "Wild card searches (*) are supported". Below this is a "Basic Information" section with fields for "Program Office" (with an asterisk), "Contact Email" (with an asterisk), "Action Office" (set to "OPX"), and "Active" (radio buttons for "All", "No", "Yes"). There are also radio buttons for "Category" (selected: "Program Office", others: "Consultancy Location", "Both"). At the bottom right of this section are buttons for "Search", "Export", "Clear", and "Close". Below the search criteria is a table header with columns: "Name", "Contact Name", "Phone Number", "Has RX", "Action Office", "Category", and "Mapped To Collabo...". The table content shows "No records to display." and a pagination control with "Page size 20" and "0 items in 1 pages". A "Select" button is located at the bottom right of the table area.

- Here you can search for and select from existing Program Offices/Consultancies, or **Create New Program Office/Consultancy**.

(!!) Note: If you create a new Program Office/Consultancy, you must select the Collaborate Access Portal checkbox to submit requests to a office/consultancy:

The screenshot shows the "Create New Program Office/Consultancy" form. It includes fields for "Phone Number", "Alternate Phone Number", and "Fax". To the right of these fields are labels "Count", "St", and "ZIP C". Below the phone number fields is a checkbox labeled "Collaboration Access Portal", which is circled in red. At the bottom left, there is a note: "Note: * fields are mandatory".

- When you've selected at least one office/consultancy, click **Select** to add these to the RFD, then click **Next** to move to step 2:

7. The *New RFD - Step 2* screen appears as shown below. First add any (A) Attachments, such as the original request letter for context:
8. You can also configure the message the end user receives with the request in the collaboration portal. First add a **Subject** for the message. You can also edit the **message body** as needed.
9. When you're ready to submit the request, click **Send Message**. A pop up message appears to confirm sending the RFD. Click **OK** to continue.
10. After the job processes, click **Close Window**. The *Request for Documents* screen refreshes with the new RFD included on the list.

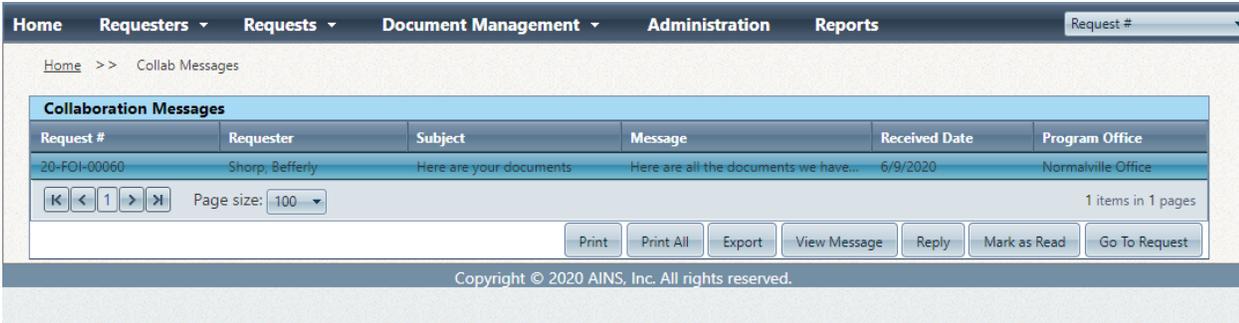

2.2 Receiving an RFD Response

When you receive a response to a request sent to the portal, the easiest point of access is via your *Messages* on the Home Page. Follow the steps below to receive records provided from the portal.

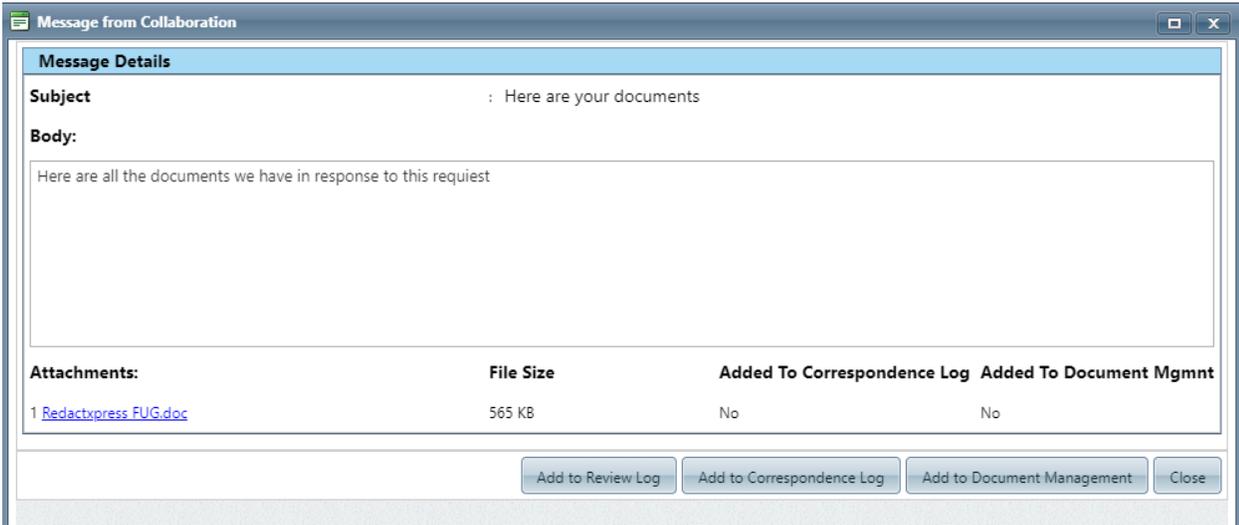

1. Click the **Messages from Collaboration Room** link on the *Home Page* to access your Collaboration Messages. The *Collaboration Messages* screen appears as shown below:

Collaboration for Portal Users

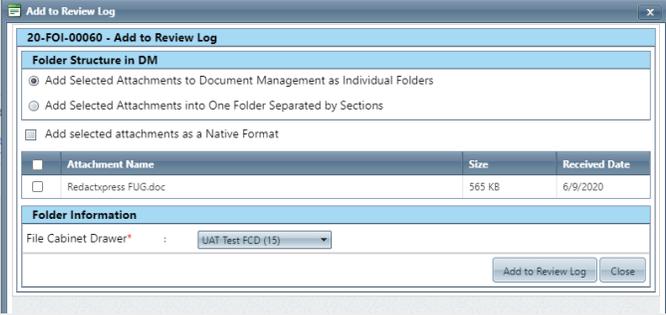

2. Select the new message and click **View Message**. The subject/body of the message should alert you that this message contains the responsive documents:

3. There are three options for moving the documents into FOIAXpress: **Add to Review Log**, **Add to Correspondence Log**, and **Add to Document Management**. Each is detailed in the following table:

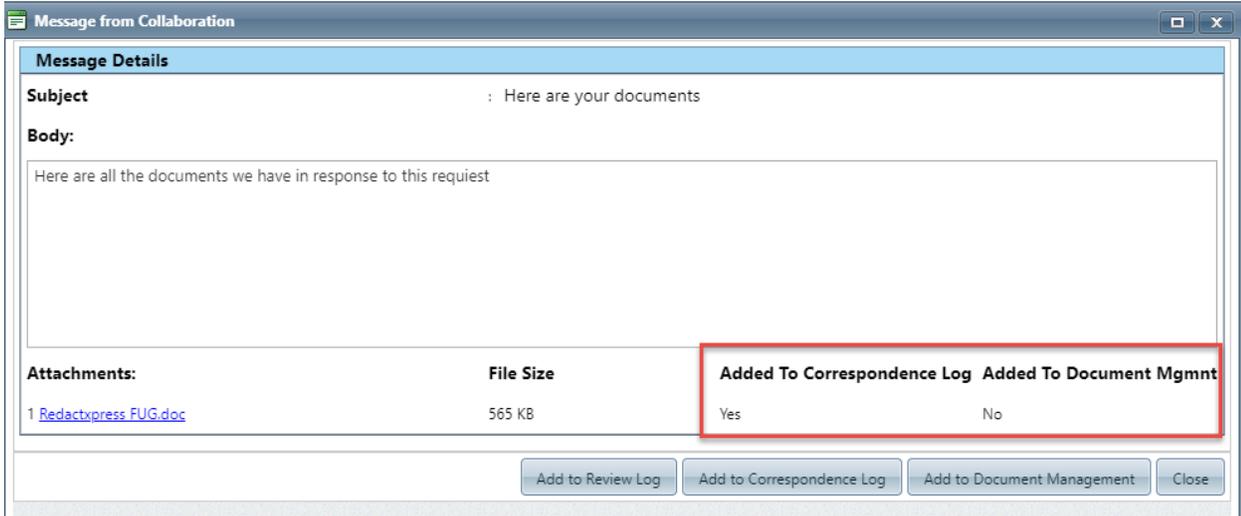

Action	Description	Image
<p>Add to Review Log</p>	<p>Add the attachments to the Review Log of the request for further processing.</p> <p>Select the <i>Attachments</i> to include, the <i>Folder Information</i> and the <i>Folder Structure</i>.</p>

3 Consultation Reviews

3.1 Send Documents for Consultation Review

The Collaboration Portal allows you to send documents directly from Document Management to the portal for review. Follow the steps below to send documents for consultation:

1. First, open the folder you'd like to send in Document Management. In *Document Management*, select the **Document/Folder** to send for review and load any review layer you'd like to include.
2. Right click the Document/Folder and click **Send/Save for Consultation Review**:

3. The *Send/Save Documents for Consultation* screen appears as shown below. First, under *Consultation Type*, you must select **Send via Collaboration Room**. This ensures the request is sent to the portal for consultation review:

10. Follow the steps in the *Receiving Responsive Documents* section for details on receiving a Consultation Review from the portal.

3.2 Receiving a Consultation Review

When you receive a response to a consultation review sent to the portal, the easiest point of access is via your *Messages* on the Home Page. Follow the steps below to receive records provided from the portal. These steps apply to both *Consultation Reviews* and *Requests for Documents*.

1. Click the **Messages from Collaboration Room** link on the *Home Page* to access your Collaboration Messages. The *Collaboration Messages* screen appears as shown below:

Collaboration for Portal Users

The screenshot shows a web application interface with a navigation bar at the top containing 'Home', 'Requesters', 'Requests', 'Document Management', 'Administration', and 'Reports'. A search box for 'Request #' is on the right. Below the navigation bar, the breadcrumb path is 'Home >> Collab Messages'. The main content area is titled 'Collaboration Messages' and contains a table with the following data:

Request #	Requester	Subject	Message	Received Date	Program Office
20-FOI-00062	Sharp, Bifferly	Reviewed Documents	Made some minor changes, otherwise lo...	6/9/2020	Normalville Office

Below the table, there are navigation controls including a page size dropdown set to '100' and a status indicator '1 items in 1 pages'. At the bottom of the table area, there are buttons for 'Print', 'Print All', 'Export', 'View Message', 'Reply', 'Mark as Read', and 'Go To Request'.

2. Select the new message and click **View Message**. The subject/body of the message should alert you that this message contains the responsive documents:

The screenshot shows a window titled 'Message from Collaboration'. The 'Message Details' section displays the following information:

4 Correspondence

You can use the *Messages* feature to communicate with Portal users. Keep an eye on the *Messages* widget on the Home Page, where you can view **Messages from Collaboration Room**.

1. From the Home Page, click the **Messages from Collaboration Room** link to view messages received from the Collaboration Room.

2. The *Collaboration Messages* screen appears as shown below. The screen includes a (A) list of messages received from the Collaboration Portal, as well as (B) Actions you can take on the messages, including **View Message**, **Reply**, **Mark as Read**, and **Go To Request**, which links directly to the associated Request.

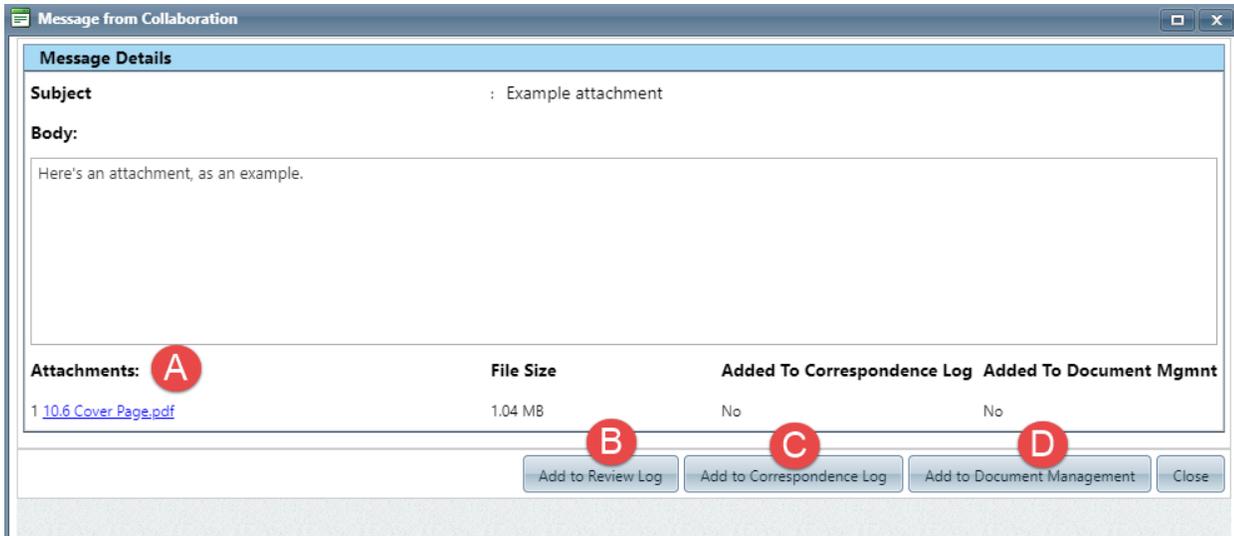

The 'Collaboration Messages' screen displays a table with the following data:

Request #	Requester	Subject	Message	Received Date	Program Office
20-FOI-00060	Shorp, Bifferly	Example attachment	Here's an attachment, as an example.	6/9/2020	Normalville Office
20-FOI-00060	Shorp, Bifferly	Clarification on the thing	Do you mean THE thing, or THAT thing...	6/9/2020	Normalville Office

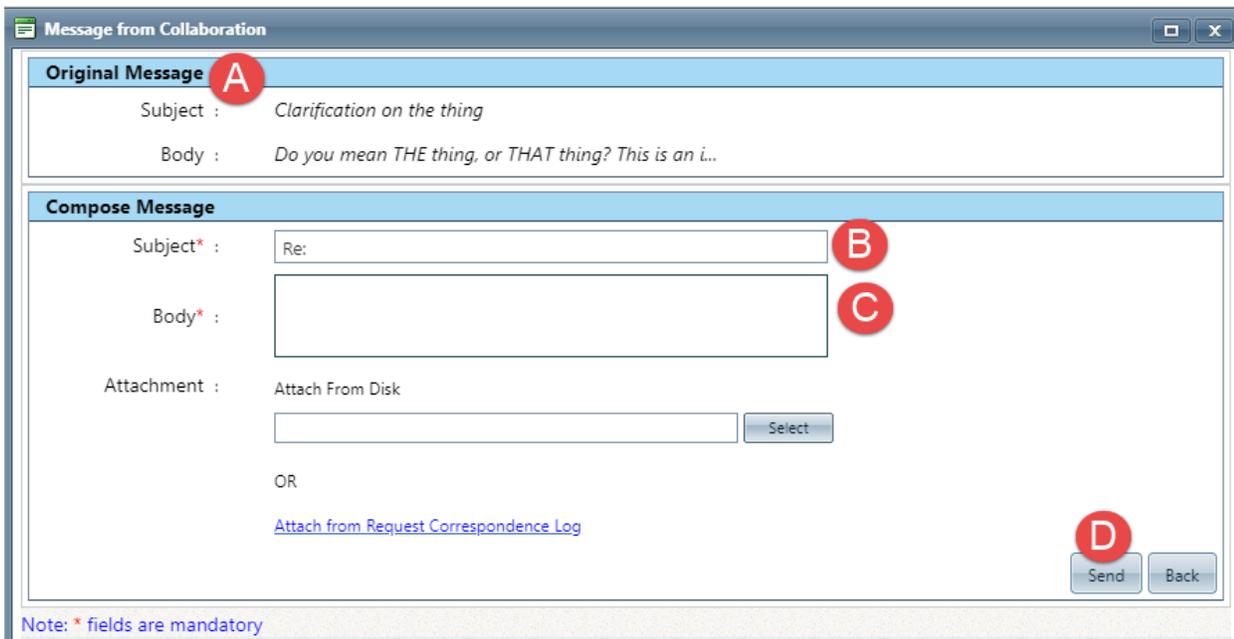

At the bottom of the screen, there are several action buttons: **Print**, **Print All**, **Export**, **View Message**, **Reply**, **Mark as Read**, and **Go To Request**.

3. Select a message from the list and click **View Message** to view the message contents and details:

- The *Message Details* includes the message *Subject* and *Body*. If the message includes any (A) *Attachments*, there are options to take these attachments and (B) **Add to Review Log**, (C) **Add to Correspondence Log**, or (D) **Add to Document Management**.
- You can also click **Reply** to respond to the portal. The correspondence interface appears as shown below:
- The (A) *Original Message* is present in the top portion of the screen. Enter your response in the *Compose Message* fields, providing both the (B) **Subject** and (C) **Body**, as well as (optionally) any *Attachments*. When you're ready to send it, click (D) **Send**:

- If you click **Mark as Read** on a selected message, it is removed from this *Collaboration Messages* list.
