1 Introduction

Welcome to the Collaboration Portal Administration Manual. This manual provides easy reference information to help Collaboration Portal Administrators utilize the system features to best suit your organization's needs.

1.1 In This Manual

In this manual we'll discuss the following topics:

- General Administration: *General* portal configuration, and managing the portal UI through the *Application Template*
- User Management: Manage Portal users
- Security Management: Configure the Portal security options
- Email Template: View and edit system email templates
- Email Logs: Manage the system email logs
- Audit Logs: System actions are tracked in the audit log

1.2 Accessing Portal Administration

Portal users with Administrator access have an additional *Administration* tab available from the portal Home Screen. Click the **Administration** tab to access the system *Settings* screen.

Collaboration Portal		/			T Weld	come Admin Admin	Help 👩 Sign Out

Security Management	Email Template
Security Configuration	📃 🔜 Manage Email Templates
Email Log(s)	Audit Log(s)
Email Log(s)	Audit Log(s)
All outgoing email logs will be tracked over here	All navigated links will be tracked over here

Each topic is covered in a separate section of this manual. See the following sections for details on each configuration page.

General settings include the *General Configuration* and options for managing the *Application Template*.

2.1 General

To access the *General* settings page, navigate to the **Administration** tab, then click **General**:

Home Tasks	Administration	
General		
2 General	Configuration	Application Template Manage Application Templates
User Managen	nent	
User Ma Manage I	anagement Users	
Security Mana	gement	Email Template
	/ Management Configuration	Email Template Manage Email Templates

2.1.3 Allowed File Formats

You can configure which file types are allowed as attachments in the Collaboration Portal. To access Allowed File Formats configuration, navigate to Administration > General, then select the Allowed File Formats tab. The Allowed File Formats screen displays as shown below:

eral Header and Foo	oter Configuration Allowed File Formats Login Logo Help Links Technical Support System Notice	
wed File Formats	C	
figure allowed File Form	nats for Attachments	
id New		
Allow	File Format B	Extension
	Bitmap Image File	bmp
	Encrypted Post Scripfile	eps
	Graphics Interchange Format	gif
	Hyper Text Markup Language	htm
 ✓ 	Joint Photographic Experts Group	jpg
✓	Microsoft Excel 2007, 2010	xlsx
 ✓ 	Microsoft Excel 97, XP, 2000, 2003	xis
 ✓ 	Microsoft Outlook Message Format	msg
 ✓ 	Microsoft PowerPoint 2007, 2010	pptx
 ✓ 	Microsoft PowerPoint 96, XP, 2000, 2003	ppt
✓	Microsoft Word 2007, 2010	docx
 ✓ 	Microsoft Word 97, XP, 2000, 2003	doc
	Personal Computer eXchange	рск
 ✓ 	Portable Document Format	pdf
	Portable Network Graphics	png
 ✓ 	Tagged Image File Format	tif
	Text - Comma Separated	CSV
 ✓ 	Text (Flat Files)	txt
	Windows Metafile	wmf
	WordPerfect	wpd
	XPS Searchable Image	xpss
	Xtended Markup Language	xml
	Xtended Post Scriptfile	xps

Select the (A) *checkboxes* beside the (B) *File Formats* you'd like to allow in the collaboration portal (click the Allow checkbox to select All formats). There is also the option to (C) Add New file formats if needed. Click (D) Save to save any changes to the selections on this page.

If you click **Add New** to add a new allowed format, fields appear for capturing the details as shown below:

Enter a (**A**) *File Format* name and the file (**B**) *Extension*, then click (**C**) **Save** to save the new format.

2.1.4 Login Logo

You can configure the logo that appears on the Collaboration Portal login screen. To view or edit the *Login Logo*, navigate to **Administration > General**, then click the **Login Logo** tab. The *Login Logo* screen appears as shown below:

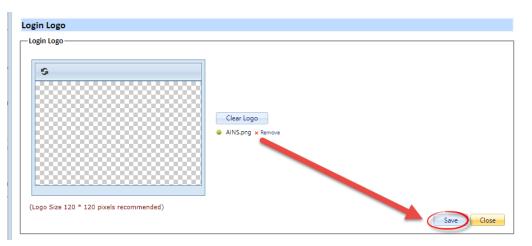

📕 Login Logo				
General	Header and Footer Configuration	Allowed File Formats	Login Logo	Help
Login Logo)			
Login Logo				
S A				
			ear Logo	
			d Logo	
			•	
(Logo Size	120 * 120 pixels recommended)			

The current logo, if any, appears in the (A) image grid. There are also options to (B) Add Logo and (C) Clear Logo to clear the current logo.

To add a logo or switch the current logo, click **Add Logo**. An explorer window appears. Locate the logo file and click **Open** to add it. Only .png, .jpg, and .gif files are accepted for logo images.

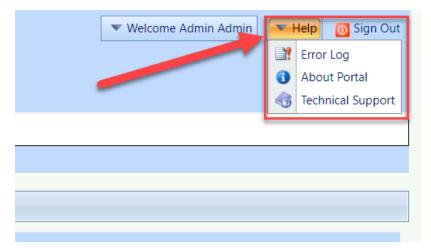

(!!) Note: Recommended logo dimensions are 120 x 120.

The Login Logo screen refreshes with the logo file name present. Click **Save** to save the logo:

2.1.5 Help Links

Help Links configuration allows you to add custom links under the *Help* menu in the Collaboration Portal:

To configure *Help Links*, navigate to **Administration > General** then click the **Help Links** tab. A sample tab is shown below:

E	Help Links							x
	General	Header and Footer Con	figuration	Allowed File Forr	nats	Login Logo		
	Help Links	Technical Support	System Not	tice				
	Help Links							
	Add New	Edit Delete						
	Display Nan	ne Help	URL

r		1 🕨 🕨 🗛 age:	1 of 1 Go	Page size: 10	Change	Item	0 to 0 of 0	
é						(Close	

Existing *Help Links* (if any) are included in the (**A**) *Help Links* list. There are also options to (**B**) **Add New** help links, (**C**) **Edit** an existing link, or (**D**) **Delete** a link.

To add a new help link:

1. Click Add New. Fields appear to capture the new help link.

Help Links	lelp Links					
Help Links (Configuration					
Add New	Add New Edit Delete					
Display Na	ime* :					
Туре	:	ORL OAttachment

- 2. Provide the *Display Name* for the link, as it will appear in the *Help* menu.
- 3. Select whether the Help Link is a **URL** or **Attachment**.
- 4. If you selected **URL** in step 3, provide the help link URL in the URL field.
- 5. If you selected **Attachment** in step 3, click **Add** in the *Attachment* field to add the attachment.

Theip clinics configuration	511					
Add New Edit	Delete					
Display Name* :	Sample Attachment Link]				
Type :	🔘 URL 🔘 Attachment					
Attachment* :	Add					
Save Ca	ancel					

6. When you've configured the new help link, click **Save** to add it to the list.

2.1.6 Technical Support

The Technical Support configuration allows administrators to customize the text that appears when users visit the Technical Support page (**Help > Technical Support**).

First, use the (**A**) Settings selections to determine if you'd like to use the default technical support information (pointing users to contact OPEXUS Support). If not, you have the option to use custom technical support details. To customize the Technical Support page, select the **Use Custom Defined Content** radio button. After selecting this button, the (**B**) Rich Text Editor becomes available, allowing you to edit the technical support details.

2.1.7 System Notice

System Notice allows you to set a custom system-wide notification. It is typically used to alert users to planned outages or other updates.

The notice displays as a static bar on the dashboard, as pictured below:

C	Collabor	ation Por	tal!		
Q	A Be go	od at collab	oorating!		
	Home	Tasks	Administration		
Γ	- Settings Ger	eral			
		General General Co	onfiguration		
	Use	r Managem	ent		
	1	User Mai Manage U	nagement sers		
	Sec	with Manag	omont		

To configure a *System Notice*, navigate to **Administration > General** then click the **System Notice** tab.

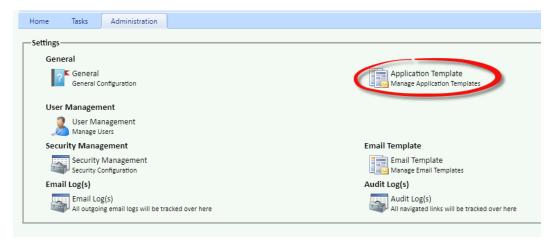

Technical S	upport						x
General	Header and Footer Configuration	Allowed File Formats	Login Logo	Help Links	Technical Support	System Notice	
System Noti	ce Text

Be good at	t collaborating!						1
	-						
					D	Save Close	

First, set the **(A) Display Through** date. Input the text in the **(B) System Notice Text** field, then edit the text using the **(C) text controls**. Click **(D) Save** to set the notice.

2.2 Application Template

The Collaboration Portal contains preexisting application templates that you can manage and customize. These templates can then be used to communicate specific types of information.

To access the *Application Template* settings page, navigate to the **Administration** tab, then click **Application Template**:

The Application Template screen is shown below:

Home Tasks Administration					
😰 Edit Application Template 📸 Back					
Application Templates					
Name	Subject	Created Date			
Submit Instructions	Submit Instructions	03/03/2023

Consultation Instructions	Rfd Instructions	03/03/2023			
Rfd Instructions	Rfd Instructions	03/03/2023			
Page: 1 of 1 Go Page size: 4 Change Item 1 to 4 of 4					

2.2.1 About Application Templates

The Application Template options are described in the following table:

Name	Description
Submit Instructions	Set custom instructions for submitting documents via the Collaboration Portal.

Name	Description			
Disclaimer Configuration	Portal login screen. (!!) Note: Disclaimer Cor	ote: Disclaimer Configuration provides options to display isclaimer either Above or Below the login window: Application Template plication Template plication Subject Disclaimer Configuration		
Consultation Instructions	 ns Set custom instructions for the collaborator to view when the receive a Consultation Task. Set custom instructions for the collaborator to view when the receive a Request for Documents Task. 			
Rfd Instructions				

2.2.2 Editing Application Templates

To edit an application template, navigate to **Administration > Application Templates**. Next, select a **Template** from the *Application Templates* list and click **Edit Application Template** to view and edit the *Application Template* details, as shown in the following example:

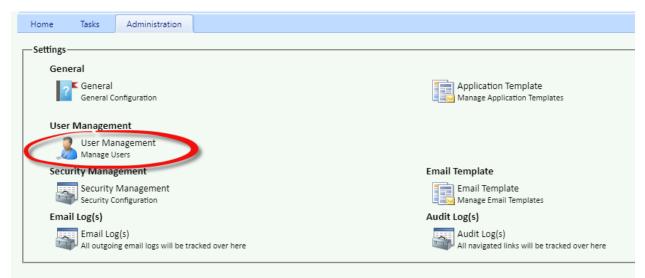

plication Template - Submit Inst	tructions			
dit Application Template				
pplication Template	Submit Instructions			
nstruction Subject	Submit Instructions			
nstruction Body				
🚓 💖 AA 🖾 🐰 🖬 😩 🕻	🖫 • • • • • 😣 😣 ¶+ 🕮 🚍 🛙	: • L

🖉 Design 📣 HTML 🔍 Pi	Preview			
Vords: 0 Characters: 0				

The *Instruction Subject* field can be edited if needed. Use the *Instruction Body* field to provide instructions on the stated *Instruction Subject*. You can also use the text editing tools to format the instructions to your specifications.

When you've configured the application template as needed, click **Save** to save the template.

3 User Management

User Management configuration allows you to view and edit personal information for portal users. To access User Management, navigate to **Administration > User Management**:

The Users screen appears as shown below with all portal users listed.

🖹 Edit User 👘 Bi	ack				
Users					
Last Name	First Name	Login	Active	Login Status	Created Date
Admin	Admin	Admin	Yes	Not Logged In	03/18/2020
Lindsay	Emily	elindsay@ai	Yes	Not Logged In	04/28/2020
test	test	bgarver@ain	Yes	Not Logged In	05/05/2020
lge	Caroline	cige@ains.c	Yes	Not Logged In	05/15/2020

Time Zone*	(UTC-05:00) Eastern Time (US & Cana 🔻		
Language	English		

In addition to editing the personal details, you can mark the user as **Locked** and **Active**. If you make any changes, click **Save** to save these changes.

4 Security Management

Security Management allows administrators to manage the system security settings. To access *Security Management*, navigate to **Administration > Security Management**:

The Security Configuration screen is shown below:

Security Management

Security Configuration		
Default values	: 🗹	
Passwords never expire	:	
Passwords are valid for*	: 90	days
Remind user*	: 5	days before password expires
Do not allow reuse of last*	: 12	passwords (including current)
Password can contain up to*	: 2	repeating character(s)
Minimum password length*	: 8	characters
Password must contain at least*	: 2	uppercase letter(s)
Password must contain at least*	: 2	lowercase letter(s)
Password must contain at least*	: 2	special character(s)
Password must contain at least*	: 2	numeric character(s)
Require Temporary Password Update after Login	: 🖉	
Login fails after*	: 5	invalid login attempts
User Account Inactivation	: 🗹	
Inactive user account after*	: 30	days of inactivity
Session time-out after*	: 20	minutes
Alert user before Session expires for*	: 5	minutes
OTP notification type	: None 🗸	
OTP expires in	: 5	minutes

Use these fields to configure the security settings, as described below. Click **Save** to retain any changes made to the security settings.

Field	Description
Default values	Select this checkbox to apply the default system values for all <i>Security Configuration</i> screens.
Passwords never expire	Select this checkbox to prevent user passwords from ever expiring.
Passwords are valid for X days	Enter the number of days a user's password is valid before expiration.

Field	Description
Remind user X days before password expires	Enter the number of days before the user's password expires that they should be reminded to reset their password.
Do not allow reuse of last X passwords (including current)	Enter a number of previous passwords to disallow reuse of when changing a password.
Passwords can contain up to X repeating characters	Enter the maximum number of repeating characters allowable in user passwords.
Minimum password length X characters	Enter the minimum length required for user passwords in characters.
Password must contain at least X uppercase letters	Enter the minimum number or uppercase characters required in the password.
Password must contain at least X lowercase letters	Enter the minimum number or lowercase characters required in the password.
Password must contain at least X special characters	Enter the minimum number or special characters required in the password.
Password must contain at least X numeric characters	Enter the minimum number or numeric characters required in the password.
Require Temporary Password Update after Login	Select this checkbox to require any user logging in with a temporary password to update their password after login.

Field	Description
Login fails after X invalid login attempts	Enter the maximum number of tries a user is allowed to attempt to log in unsuccessfully before that user account is locked.
User Account Inactivation	Checked to denote an inactive user.
Inactivate user account after X days of inactivity	Enter the number of days a user account is inactive before it is formally inactivated in the system.
Session time-out after X minutes	Enter in minutes the length of time a user can be inactive in their current session before the session times out and the user is logged out.
Alert user before Session expires for X minutes	Enter in minutes how long before the session auto-terminates the user is alerted that the session will be terminated.
OTP notification type	Select a notification type from the drop-down menu.
OTP expires in X minutes	Enter the number of minutes the OTP will be active before expiration.

5 Email Template

The Collaboration Portal includes several built-in email templates to alert users when certain events occur in the system. This section includes information on accessing these templates, brief descriptions of the available templates, and steps to edit these templates to better suit your organization's needs.

5.1 Email Template Configuration

To access *Email Template* configuration, navigate to **Administration > Email Template**:

Home Tasks Administration

Template	Description
Program Office Notification of Portal User ID	Notification sent to the Program Office contact when an account is created for that office; includes the user login ID.
Password Information	Notification sent to the Program Office contact when an account is created for that office; includes the login password.
Forgot Password	When a portal user forgets their password, this notification is sent with a temporary password.

Email Templates

Template	Description
Forgot Password Identification Code Notification	A security token provided with a Forgot Password request. The code is only valid during the current session.
Consultation Assignment Notification	Notification sent to the Program Office contact when a consultation assignment is sent to the portal.
Request for Documents Assignment Notification	Notification sent to the Program Office contact when a request for documents assignment is sent to the portal.
Request Message Notification	Notification sent relating to request messages.
Deactivated Reason	When a user account is deactivated, this message is sent to their email stating the reason for the deactivation.
Completed Task Notification	Notification sent when a task is completed in the portal.
Message Notification to FX	Notification sent to FX when a message is logged on a request.
Message Notification to Portal	Message sent to portal user email when a message is sent to the portal from FOIAXpress.
Receipt Confirmed	Notification sent to the originating office when a request is received in the portal.
OTP Notification	Notification sent when a user requests a one-time passcode.

Template	Description
Request for Documents Task Deletion	Message sent to user when a document is removed from their assigned Rfd Tasks.
Consultation Task Deletion	Message sent to user when a document is removed from their assigned Consultation Tasks.

Follow the steps in the *Edit an Email Template* section to customize the templates for your organization's use.

5.2 Edit an Email Template

To edit an existing Email Template:

- 1. Navigate to Administration > Email Template.
- 2. Select an existing **Email Template**, then click **Edit Template**:

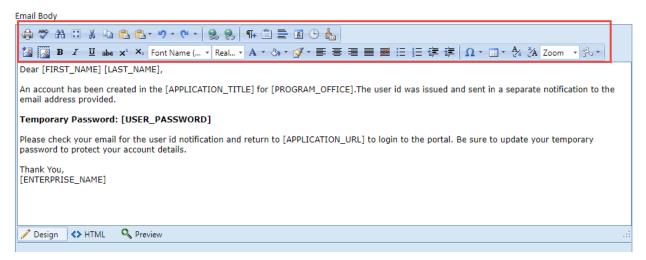

Home Tasks Administration		
🕑 Edit Template		
Email Templates		
Name	Subject	Created Date
Program Office Notification of Portal User ID	[APPLICATION_TITLE] Login Information	03/18/2020
Password Information	[APPLICATION_TITLE] Password Information	03/18/2020
Forgot Password	[APPLICATION_TITLE] Password Information	03/18/2020
Forgot Password Identification Code Notification	[APPLICATION_TITLE] Identification Code	03/18/2020
Consultation Assignment Notification	[APPLICATION_TITLE] Consultation Assignment Notification	03/18/2020
Request for Documents Assignment Notification	[APPLICATION_TITLE] Request for Documents Assignment N	03/18/2020

3. The template appears as shown in the following example.

4. Edit the template as needed using the editing tools available. These mirror the template editing tools available in FOIAXpress. Refer to the FOIAXpress User Manual content on Email Templates for details:

5. There are also options to view this template in the **HTML** editor view. Click (**A**) HTML to view the email in (**B**) HTML:

Email Templates

6. Click **Save** to save any changes made to the template.

6 Email Log(s)

You can use the *Email Log(s)* to monitor email activity in the Collaboration Portal. Use search and filtering options to locate specific messages or a range of messages.

To access *Email Log(s)*, navigate to **Administration > Email Log(s)**:

Home Tasks Administration	
- Settings-	
General	
General General Configuration	Application Template Manage Application Templates
User Management	
User Management Manage Users	
Security Management	Email Template
Security Management Security Configuration	Email Template Manage Email Templates
Email Log(s)	Audit Log(s)
Email Log(s) All outgoing email logs will be tracked over here	Audit Log(s)

The *Email Log Information* screen appears as shown below. Use the (**A**) *Filters* to locate messages, which display in the (**B**) *Results* list:

6.2 Search and Filter Emails

Use the *Filter* options to locate messages using the various message attributes, such as *Status* or *Created Date*. The *Filters* fields are shown below and described in the following table.

Email Log Information Filters				
Subject :			Status :	●All ○Success ○Failure ○Pending
Sender :			Template :	
Created Date :	From: 6/11/2020	To: 6/17/2020		
				Search Export Clear Log Clear Filters

Field	Description
Subject	Text appearing in the <i>Subject</i> line of the message.
Sender	Email address of the message Sender.
Created Date	Use the <i>From</i> and <i>To</i> fields to select a date range when the message was created.
Status	Select the message <i>Status</i> . Options are All , Success , Failure, and Pending.
Template	Enter the <i>Template Name</i> in this field to locate messages using that template.

Click **Search** to locate results matching the filters. Sample search results are shown below:

Ref	Element	Description
Α	Log Selection	Select between Session Audit Log and User Action Audit Log.

Ref	Element	Description
В	Filters	Use the <i>Filters</i> to locate a specific <i>Session</i> or <i>User Action</i> . Click Search to display matching results in the <i>Results</i> list.
		There are also options to Export the results list, Clear Log to clear the log contents, and Clear Filters to clear data entered in the search fields.
с	Results	All matching audit results display in the <i>Results</i> list.

The following sections detail the Session Audit Log and User Action Audit Log.

7.1 Session Audit Log

The session audit log logs all user sessions, including the IP of the workstation where the portal was accessed and the access times.

To view the Session Audit Log, navigate to Administration > Audit Log(s). The Audit Log screen appears with Session Audit Log selected by default.

Audit Log					
Session Audit L	og		⊖ User Ac	tion Audit Log

Admin Admin	66.16.86.16	52	06/15/2020:03:18:18	06/15/2020:03:23:18	Admin
Admin Admin	66.16.86.16	60	06/15/2020:02:43:29	06/15/2020:03:23:18	Admin

Use the Filters to search for users using the First Name, Last Name, Login From dates, or User Login, then click **Search** to display matching results. The Results list appears as shown below:

Full Name	Work Station	Login Time 🗸 💙	Logout Time	Login Name
Admin Admin	66.16.86.162	06/17/2020:10:48:10		Admin
Admin Admin	66.16.86.162	06/17/2020:10:44:16	06/17/2020:10:48:07	Admin
Admin Admin	66.16.86.162	0:09:17:10	06/17/2020:10:48:07	Admin

Ref	Field	Description
Α	Full Name	Full name of the user account attached to this session.
В	Work Station	IP of the workstation that accessed the portal.
С	Login Time	Time and date the session began.
D	Logout Time	Time and date the session was terminated.
E	Login Name	Login name attached to the session.
F	Navigation	Use the <i>Page</i> options to view additional pages or change the number of entries displayed per page.

7.2 User Action Audit Log

The session audit log logs all user sessions, including the IP of the workstation where the portal was accessed, and the access times.

To view the *Session Audit Log*, navigate to **Administration > Audit Log(s)**. The *Audit Log* screen appears with **User Action Audit Log** selected by default.
