1 Support for the Visually Impaired

FOIAXpress offers tools to assist visually impaired and blind users in using the software. In this topic, we discuss recommended themes as well as JAWS support.

1.1 Recommended Themes

FOIAXpress includes several available visual themes for the application. For visually impaired users, we recommend using either the Outlook or Windows 10 themes, which offer high contrast and added usability. To change your theme, follow the steps below:

Click your **User Menu** and select **Preferences**.

User General Preferences, locate the Application Theme drop down. Here, you'll see the selections, including Outlook and Web Blue, as shown below:

Support for Visually Impaired

The screenshot shows the 'General Preferences' section of the FOIAxpress application. The 'Application Theme' dropdown menu is open, displaying a list of themes: Default, Metro, Metro Touch, Office 2010 Blue, Office 2010 Silver, Outlook (High Contrast - 508), Silk, Simple, Sunset (High Contrast), Vista, Web20, Web Blue, and Windows 7 (High Contrast). The 'Outlook (High Contrast - 508)' theme is highlighted. A red box highlights the 'Application Theme' label and the dropdown arrow. Two red arrows point from the right side of the page to the 'Outlook (High Contrast - 508)' theme and the 'Save' button. The 'Save' button is located at the bottom left of the preferences section. The 'Refresh' button is located at the bottom right of the preferences section. The 'Records per Page*' field is set to 20. The 'Time Zone*' field is set to (UTC-05:00) Eastern Time (US & Canada). The 'Receive Job Email Notifications' field is set to All Notifications. The 'Show Inactive Custom Fields in Search' checkbox is unchecked. The 'Notes' section states: 'Maximum number of Records per Page is 100. Changes made to Language will take affect after the user logs out and logs back into the application.'

In the example below, we've selected the Outlook (High Contrast - 508) theme. The updated theme is shown below:

The screenshot shows the 'General Preferences' section of the FOIAxpress application after the theme has been updated. The 'Application Theme' dropdown menu is now set to 'Outlook (High Contrast - 508)'. The 'Save' button is highlighted. The 'Records per Page*' field is set to 20. The 'Time Zone*' field is set to (UTC-05:00) Eastern Time (US & Canada). The 'Receive Job Email Notifications' field is set to All Notifications. The 'Show Inactive Custom Fields in Search' checkbox is unchecked. The 'Notes' section states: 'Maximum number of Records per Page is 100. Changes made to Language will take affect after the user logs out and logs back into the application.'

2 Using JAWS with FOIAXpress

2.1 Online Manual (508) Notification

The user is notified of the availability of the 508 compliant version of the Online Manual while the URL is loading, prior to being notified of FOIAXpress Action Options.

2.2 Asterisk Definition and Mandatory Field Notification

All asterisks are identified as wild card searches in search screens. Additionally, the user is notified.

2.3 Adding > Symbol to JAWS Dictionary

For JAWS to be able to accurately read the instructions in this manual, you need to add the > symbol to the JAWS dictionary.

(!!) Note: After performing the steps below, JAWS will be able to read the > symbol in your browser.

Perform the following steps to add the > symbol to the JAWS dictionary:

1. Press **INSERT+F2** to open the list of JAWS managers.
2. Press **D** to move to Dictionary Manager, and press **ENTER** to open it. The browser dictionary file will open.
3. The **Add** button will be selected. Press **SPACEBAR** to activate the **Add** button.
4. Type the > symbol.
5. Press **TAB** to move to the **Replacement Word** edit field.
6. Type "**Click**".
7. Press **ENTER** to close the Add Dictionary Definition dialog box.
8. Press **ALT+F4** to close the JAWS Dictionary Manager.
9. Answer "**Yes**" to save the changes.
