# eCase Audit 4.10.0 Release Notes

## New Features

The following new features were added to eCase Audit 4.10.0:

ID	Feature	Description
20397	Audit Management – Modify Milestones	Users that have the ability to review milestones will now have the option to modify milestones when they are in a prepared status. This change only applies when review on milestones is enabled, and when the workflow configuration option for milestones is selected.
21984	Audit Management – Edit Attachments from Approvals	Users now have the ability to view and edit attachments using the "View/Edit" button on the Approvals tab if they are the "Assigned To" user. This change only applies if the workflow configuration option for attachments is selected.
22002	Audit Management – Field Administration	Users now have the ability to enable/disable all Project tab, Project Profile, Project Objective, and Recommendation detail fields via the Field Configuration section in the Configuration tab.
22208	Audit Management – Retain Deleted Note Contents	When a note is deleted, the contents of the deleted note now appear in the Action Log.

## Bug Fixes

The following bug fixes were applied in Audit 4.10.0:

ID	Description
<b>21136</b>	Fixed an issue where changes to Planned Dates for Milestones caused the application to incorrectly update the “Next Milestone.”
