v4.8.0

February 2023

eCase Audit 4.8.0 Release Notes

New Features

The following new features were added to eCase Audit 4.8.0:

ID	Feature	Description
20194	FDIC Training Dashboards	Updated the FDIC Training Dashboards to reflect customer-requested changes.
20392	FDIC Training Widget	FDIC OIG now includes a Training widget for the Manager role. This widget shows CPE Year 1 and Year 2 compliance for all active Training users. Managers can toggle between the views through their user preferences.
20398	Choose Approval Terminology	In Audit Management, the Choose Approval drop-down list option reflect the same terminology used in the tab names, providing consistent terminology between tabs.

Bug Fixes

The following bug fixes were applied in Audit 4.8.0:

ID	Description
20400	Fixed an error in the FDIC UAT where the *Status Progress on Procedures* count did not include procedures in "Created" status.
20542	Fixed an issue where values set at the Procedure phase in a Project template were not present when the template was imported into an existing project.

ID	Description
20644	Fixed an issue where the Sequence field allowed entry of a non-integer value when the procedure was saved using the Save button rather than the Update button.
20394	Fixed a Security configuration issue where the system overrode Project Administrator permissions with lower-level permissions, preventing administrators from adding/removing staff from Projects.
20241	Fixed issue in Audit Management when attempting to move a newly-created procedure group up or down in the order. Moving procedures up no longer skips a letter code in the sequencing, while moving procedures down now functions as expected
