v4.9.0

March 2023

eCase Audit 4.9.0 Release Notes

New Features

The following new features were added to eCase Audit 4.9.0:

ID	Feature	Description
21074	Bulk Milestone Handling	In Audit Management, any assigned milestones listed on the Approvals tab will be available to select and either Bulk Approve or Bulk Reject, allowing multiple milestones to be approved or rejected at once.
21860	Audit Management Dashboard Updates	We've updated the Audit Management dashboard in the VA UAT environment with the customer-supplied requirements.

Bug Fixes

The following bug fixes were applied in Audit 4.9.0:

ID	Description
21103	Any terminology changes made via the Configuration folder are now reflected in the tooltips for the respective fields.
21225	The Action Log now displays the name of the user who committed the system action rather than the User ID.
21617	Fixed a rare issue in which using the Assignment tab to delegate or cancel tasks caused a breakage in the approval workflow.

ID	Description
21635	Fixed a rare issue in which delegating tasks within Attachment Approvals caused a breakage in the attachment approval workflow.
21753	Fixed a reported issue where a specific Project folder could not be closed. An error message indicated that documents within the project required approval, however the project contained no documents and milestones.
21956	Fixed an issue in Audit Management under the Attachments workflow where the “Attachments Assigned To” column failed to display the assigned user’s name.
21964	Fixed an issue where a single Procedure in a specific Project folder became stuck in Prepared status, with users unable to take further action on the Procedure.
