v5.10.1

October 2023

# eCASE Audit 5.10.1 Release Notes

## Bug Fixes

The following bug fixes were applied in the latest version of eCASE Audit:

ID	Description
48944	A user encountered a data formatting issue while exporting a Crystal Report in Microsoft Excel (97-2003) Data-Only format. We resolved this issue and now this report data displays correctly when exported to Excel.
48950	We've addressed a user-reported error in which disabled buttons would display as different colors on the Approvals form. Now, disabled buttons are the same color throughout the form so users can visually identify button status.
