eCASE Audit 5.5.0 Release Notes

New Features

The following new features were added to the latest eCASE Audit release:

ID	Feature	Description
26729	AM: Set Lead Auditor and Audit Manager	Added the option to set the Lead Auditor and Audit Manager at the time of project creation. If set as required, users must select the Lead Auditor and/or Audit Manager when creating a project.
27344	AM: Bulk Approve vs Single Approve in History	When a Reviewer user uses the Bulk Approve/Reject action, this is distinguished from single approve/reject actions in the action history tables.
28489	Dynamic Tags in Email Notifications	The email notification triggered on task delegation will now include dynamic tags for the element name and element status.

Bug Fixes

The following bug fixes were applied in the latest version of eCASE Audit:

ID	Description
27458	Fixed an issue where notifications sent on multiple attachments only sent for the first attachment in the list. Now, notifications are sent for every attachment individually.

ID	Description
27870	Fixed an issue when viewing the OIG Procedure Folder Report where some text was cut off in the report output. The output has been fixed so all text displays correctly.
27901	Fixed an issue where locked Procedure Elements could not be unlocked, even if users had permissions to unlock the elements.
28037	Fixed an issue where approvals could not be executed from the Milestone Dates tab.
