## Bug Fixes

The following bug fixes were applied in the latest version of eCASE Audit:

ID	Description
29998	Fixed an issue in the Audit Assistance Review form where users who were not added to the Staff tab could be assigned to the review. This drop-down now only includes Reviewers added to the Staff tab.
31023	Fixed a bug where the “Assigned To” field did not populate any options when attempting to submit an Assistance form for further review.
31368	Fixed a bug where the Attachments filing structure was not included when importing Procedures into a Project. Imported procedures now include the associated Attachments filing structure.
