Additionally, all copyrights, confidential information, patents, design rights and all other intellectual property rights of whatsoever nature contained herein are, and shall remain, the sole and exclusive property of the publisher.

Notice of Liability

The information in this publication is believed to be accurate and reliable. However, the information is distributed by the publisher (AINS, LLC.) on an “As Is” basis without warranty for its use, or for any infringements of patents or other rights of third parties resulting from its use.

While every precaution has been taken in the preparation of this publication, neither the author (or authors) nor the publisher will have any liability to any person or entity with respect to any loss or damage caused or alleged to be caused, directly or indirectly, by the information contained in this publication or by the computer software and hardware products described in it.

Notice of Trademarks

The publisher’s company name, company logo, company patents, and company proprietary products are trademarks or registered trademarks of the publisher: AINS, LLC. All other trademarks or registered trademarks are the property of their respective owners.

Non-Disclosure Statement

This document’s contents are confidential and proprietary to AINS, LLC. This document cannot be released publicly or outside the purchasing agency without prior written permission from AINS, LLC.

Images in this manual are used as examples and may contain data and versioning that may not be consistent with your version of the application or information in your environment.

Additional Notice

Information in this documentation is subject to change without notice and does not represent a commitment on the part of AINS, LLC.

Notwithstanding any of the foregoing, if this document was produced as a Deliverable or other work for hire under a contract on behalf of a U.S. Government end user, the terms and conditions of that contract shall apply in the event of a conflict.

- 2 Notification Enhancements..... 5
 - 2.1 Email Notifications for Staff Tab Changes 5
 - 2.2 Investigative Case Type Notifications Recipients..... 5
- 3 Bug Fixes 6

1 New Fields

The following new features were added to the latest eCASE Investigations release.

1.1 Additional Drop-Down Choice List Field

ID #56689

A new drop-down choice list field is now available within Evidence folders and on the Inventory tab. Drop-down menus, compared to text fields, can help reduce user input error. The field can be modified and made required/unrequired in Configuration.

1.2 New Field: Evidence Additional Information

ID #56692

An “Evidence Additional Information” field has been added to the Evidence tab where you can include additional information about the evidence. This field label can be customized, and you can show/hide this field in Configuration.

1.3 New Field: Internal Control Failures

ID #58330

A new choice list drop-down field has been added to the C/P/I form to capture Internal Control Failures. The field can be customized on the Configuration tab. It is included in the following reports: Complaint All Fields, Preliminary All Fields, and Investigations All Fields.

1.4 New Field: Management Challenges

ID #58333

We’ve also added the Management Challenges field to the C/P/I tab. The field can be configured on the Investigations Configuration page. It is included in the following reports: Complaint All Fields, Preliminary All Fields, and Investigations All Fields.

2 Notification Enhancements

2.1 Email Notifications for Staff Tab Changes

ID #58067

When a new user is added to or removed from the Staff tab of a case, they will now receive an email notification with their role name, the folder ID, and the folder URL.

2.2 Investigative Case Type Notifications Recipients

ID #58851

A notification can be sent when a user opens a case folder upon last approval. As long as it is one of the configured case types and recipients have been added, the notification will be sent out. We've created a new email template for this notification.

3 Bug Fixes

The following bug fixes were applied in the latest version of eCASE Investigations:

ID	Description
57053	Users encountered an error where items would still be associated with the Preliminary after conversion to an Investigation, resulting in a duplicate. This issue has been resolved.
57953	Addressed a bug preventing attachments from carrying over when cases are converted from C to I, C to P, and P to I.
58121	Resolved a bug in which items were missing from an Inventory Report.
58628	When converting cases from C to I, C to P, and P to I with an mp4 file, the other attachments now carry over as expected.
59104	Corrected a bug preventing Field Tracking Mapping for Field 5. When items are in the Retention table, Field Tracking Mapping cannot be modified.
60790	Timesheet data for Outreach cases now populates correctly into the Case Cost tab when time is entered into TimeXpress.
